### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: claims 2, 18-21, 26, 27 and 35-38 have been cancelled.

In claim 39, line 12, the word "said" between the words "upon" and "first movement" has been deleted and replaced by the letter "a".

2. The following is an examiner's statement of reasons for allowance:

With respect to claim 39:

Claim 39 invokes 112, 6<sup>th</sup> paragraph with respect to "said lid including means for permanent securement to said base permanently closing said opening in said base upon said first movement to said closed position", this limitation is implicitly described on pages 3, lines 6-12, of the specification as being a fitment (46) having a dispensing opening, a snap bead, etc... or an elastomeric dispensing valve. In combination with the other claim limitations, this means for permanent securement or equivalents thereof was not found or fairly suggested in the prior art.

With respect to claims 1, 11, 22, 28 and the dependent claims therefrom:

Art was not found which disclosed securing a fitment having a dispensing opening, a snap bead or an elastomeric valve, on the finish of a container by the first movement of the lid from the open to the closed position, together in combination with the other claimed features of the applicant's invention.

Art Unit: 3754

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
